Internet Explorer -- No Longer a Supported Browser

Summary

As of **June 15, 2022**, Microsoft announced the discontinuation of their web browser, Internet Explorer (IE). In doing so, this means that Microsoft will no longer provide support/assistance for the product or release security and performance updates.

Knowing this, Updox will also be discontinuing our efforts to maintain and support our product(s) within IE to ensure our customers are given the most up-to-date security and functionality.

"We are announcing that the future of Internet Explorer on Windows 10 is in Microsoft Edge. Not only is Microsoft Edge a faster, more secure and more modern browsing experience than Internet Explorer, but it is also able to address a key concern: compatibility for older, legacy websites and applications...

"With Microsoft Edge capable of assuming this responsibility and more, the Internet Explorer 11 desktop application will be retired and go out of support on June 15, 2022, for certain versions of Windows 10."
