Printer User Mapping Update

We have updated our Printer User Mapping interface to make it easier for you to manage your incoming print jobs and users. For more information on Printer User Mapping see our [article](#).

The screenshot shows the 'Printer User Mapping' interface. At the top, there is a navigation bar with a 'Menu' icon, the 'updox' logo, a notification bell, and a user profile icon labeled 'MH'. Below the navigation bar, the title 'Printer User Mapping' is displayed. A checkbox labeled 'Prevent print jobs from unmapped users' is present. A blue information box contains the following text: 'To support printing to Updox directly from your Printer Driver account, we need to know which Printer users correspond to which Updox users. In the form below, please type in the Printer user that corresponds to the Updox user in the Updox users list. If you don't want a user to be able to launch Updox, leave their Printer user mapping blank. Be sure to click Save at the bottom of the form when finished. If you have any questions, [Let Us Know](#)'. Below this, there are two main sections: 'Printer Users (11)' and 'Updox Users (33)'. The 'Printer Users' section has a search filter and a table with columns 'Printer User' and 'Mapped Updox User'. The 'Updox Users' section has a search filter and a list of users. At the bottom of the 'Printer Users' section, there is an 'Add a new Printer User ...' button and a '+ Add' button.

Printer User	Mapped Updox User
drose2	Derrick Rose (drose@updox.com)
njohnson	Derrick Rose (drose@updox.com)
drose2	Inactive Derrick Rose (drose@updox.com)
drose2	Inactive John Smithsamsonite (johnsmithsamsonite1234@somes...)
