Fax Dashboard Updates

We have updated the Outbound Faxes dashboard to include 'search' on date ranges and arrows for you to quickly jump back and forth between days.

The screenshot shows the 'Outbound Faxes' dashboard. At the top, there are tabs for 'Outbound', 'Routing', and 'Fax Numbers'. Below the tabs, there are status indicators for 'Pending' (0), 'Failed' (0), and 'Successful' (2), with a total of 2 faxes. A date range selector is set to 'Tuesday, October 3, 2023'. A search bar is present with the text 'Search by'. Below the search bar is a table with columns for 'Sent', 'To', 'From', and 'Pages'. The table contains two rows of fax records. To the right of the table is a date range calendar for September and October 2023. An arrow points to the 'Date' dropdown menu, which is currently set to 'Today (Oct 3)'. The calendar shows the date '3' selected. Below the calendar, there is a note: 'You can choose a single date by selecting it twice OR a date range by selecting the start and end dates. Date ranges are limited to 7 days.'

Release of Information Updates

We have added the 'Notes' to the Release of Information dashboard. You can hover over the 'Notes' to view more.

The screenshot shows the 'Release of Information' dashboard. At the top, there are tabs for 'Dashboard' and 'Audit'. Below the tabs, there is a 'Dashboard' section with a 'Add New Request' button. Below the button, there are tabs for 'Active' (1) and 'Archived'. Below the tabs, there is a search bar with the text 'Filter results...'. Below the search bar, there is a table with columns for 'Patient', 'Status', 'Requested', 'Due Date', and 'Notes'. The table contains one row of request data for 'Laurie Sample'. Below the table, there is a note: 'Notes go here. You can add lots of notes in the notes box.'

We have added the ability to Create an ROI Request from the Inbox. Click the checkbox on the image or images and a [New ROI Request](#) window will open for you to complete the request.
