December 2025 Release Notes

What's new

Updated Partner Portal password requirements

We updated the minimum password complexity requirements for all Partner Portal users.

Your password must now contain:

- Between 16 and 72 characters
- At least 1 uppercase letter
- At least 1 lowercase letter
- At least 1 digit
- At least 1 special character

Additional requirements are:

- Passwords cannot begin or end with a whitespace
- Password rotation after 90 days

New API to get a portal configuration

We added a new API named `/PortalRetrieveConfig` to retrieve the portal configuration established in `/PortalConfigure`.
